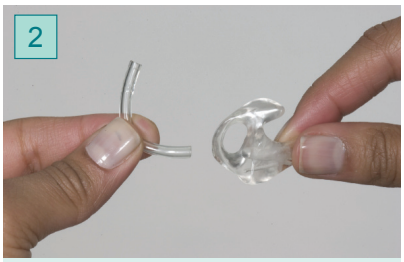
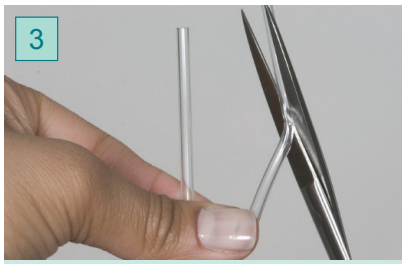
Retubing an earmould

Hearing Aid Centre

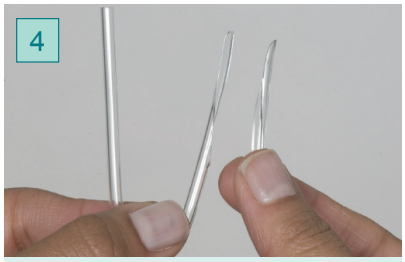
Remove old tubing



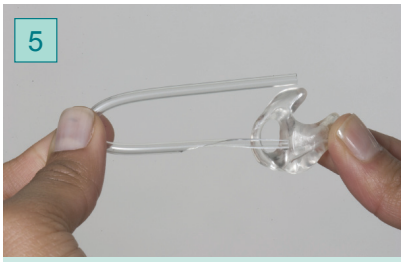
Keep old tubing for last steps of re-tubing



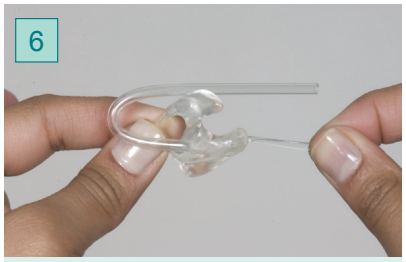
Cut new tubing at an angle.



Example of tubing.

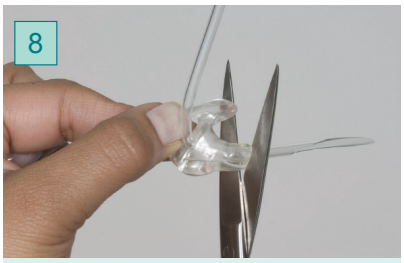


Insert trimmed end of tubing into opening in earmould.



Pull through (you may need pliers).

Example of tubing.



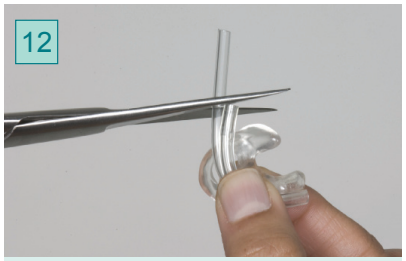
Cut tubing as close to the end of ear mould as possible.

Example of tubing in earmoulds.

uclh

Take old tubing.

Hold old piece of tubing against new tubing.



Cut to same length.

Attach mould to hearing aid

Retubing complete
