Barnet Local Offer
Children's Complex Care Team

Organisation/Service Details

Organisation or Service
Children's Complex Care Team

Description of activity
The Barnet Children's Complex Care Team is a team of registered paediatric nurses that carries out Continuing Care assessments, reviews, and case management of care packages for children and young people with complex healthcare needs up to their 18th birthday.

We support children and young people whose health needs are complex due to congenital conditions, long-term conditions, disabilities, life-limiting or life-threatening illnesses, or the effects of serious illness or injury. These needs may be so significant that they cannot be met through universal services routinely provided by GP practices, hospitals, or other community services.
