

BELS Advisory Team for Autistic Children and Young People

Neurodiversity Celebration Week: 18th-24th March 2024:

“Neurodiversity Celebration Week is a worldwide initiative that challenges stereotypes and misconceptions about neurological differences. It aims to transform how neurodivergent individuals are perceived and supported by providing schools, universities, and organisations with the opportunity to recognise the many talents and advantages of being neurodivergent, while creating more inclusive and equitable cultures that celebrate differences and empower every individual.” (Neurodiversityweek.com)
